FEEDCOMP

Manage Your Feed Like Never Before

- Excel at Inventory Management
- Access your data and make critical feed changes from any device anywhere, anytime
- Switch between multi-facilities with a tap of a finger
- Integrate your Coop Creamery Data (not available with all creameries)
- Grant access to key members of management team
- Eliminate emailing of reports, analyze or view data directly from any device
- Automatically receive new analytical tools without having to update

Update to the newest version of FeedWatch and be able to also use the user-friendly app, FeedComp, that enhances the function of the desktop.
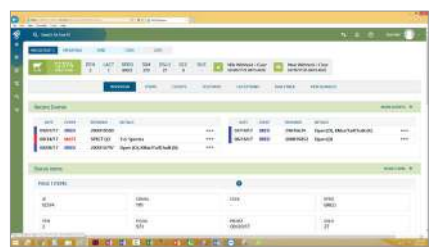

DairyComp
